WELCOME

ORVIN is a brand of Artificial Leather product through new business venture of Oriental Veneer Products Limited, having various business interests in railway equipment, foundry, timber and wood. The Oriental Veneer Products Limited is a pioneer in manufacturing high quality Wood Based Resin Impregnated densified Laminated Boards, densified thermal bonded blocks and artificial leather.

ORVIN'S BUSINESS PHILOSOPHY IS TO DELIVER HIGH QUALITY PRODUCTS

To exceed customer expectations is the core mandate at the organization and the pursuit of quality drives every aspect of business. Being a quality conscious organization, Orvin is committed to deliver best quality products and services at all times.

Adopting and developing a Quality Management System is a strategic management decision. This has enabled us to continuously improve our performance and focus on offering customers with products and services of consistent quality.

The effective and efficient management system has enabled us to be an ISO certified company as we continue to improve and develop new quality benchmarks for ourselves.

As an organization, we will soon have IATF Certification – one of the most widely used international standards in the automotive industry.

This adds to our commitment of delivering product that meet or exceed customer's satisfaction on quality and reliability for all industries and markets.

DELIVER HIGH
QUALITY PRODUCTS

ORVIN
ARTIFICIAL LEATHER

Orvin derives its experience and expertise from founders of Oriental Group. In its endeavor to expand, the Group has focused not just on growth but more importantly on enhancing quality, innovation and customer delight. Orvin is focused on technology innovation and is poised to deliver new-age products for tomorrow.

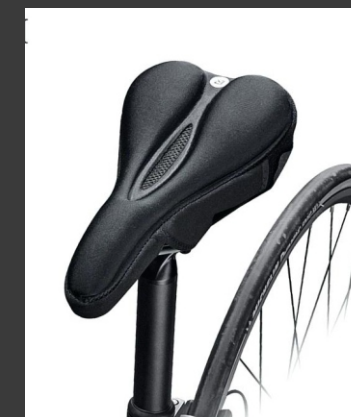

The core foundations of our company are built on organizational values, inherited from Oriental Group whose legacy has been to practice honesty and work diligently with commitment and integrity to value customer relationships and fulfill their promise to become a truly global company.

INDUSTRIAL SECTORS AND APPLICATIONS
